2015 Annual Gear Blow-out

Over the years I accumulate quite a bit of photo gear, some simply for review purposes, others have been superseded by different gear. Whatever the reason, I typically build up gear that I haven't used in a year or, in some cases, much more. Annually I offer some of this gear for sale. Some of it is like brand new, other gear is well used. I will always give you an honest assessment of the gear's condition. All gear is USA gear and no grey market gear is offered for sale. **All items are for sale in the USA only (all 50 states but not US territories). All prices include UPS ground shipping within the 48 contiguous United States. Alaska and Hawaii are a bit more. PayPal is accepted with no surcharge.** For comparison, new prices cited are based on current selling price for the item at B&H Photo Video. If you are interested in purchasing any of these items, please contact me at <mailto:ejpeiker@cox.net>
